A program of the Windham Southwest Supervisory Union partnering with its communities

& MORE!

**ALL summer 2022 programming is FREE to
WSWSU district residents, thanks to COVID-19
relief grant, 21C & district funding!**

**\$200 week fee for all non resident campers if
applicable**

Wings will remain a community that prioritizes safety. While COVID-19 is unlike any other challenge we've faced, we're confident that by following best practices shared by the WSWSU and guidelines set forth by the CDC and state health authorities, we will provide our campers with the safest, most beneficial, and unforgettable experiences possible.

These protocols are intentional, yet broad for now and flexible as we move forward, encounter inevitable changes, and are provided additional guidelines from the experts. We hope our initial Covid Safety Protocols (CSPs) offer our families assurance that this summer will be focused on fun without compromising safety. In the coming weeks and months, we will be digging deeper into the steps our families and staff can take leading up to camp, we will root our protocols in our core values, and we will offer a more detailed plan of this summer's policies and procedures. We thank you for your understanding and patience as we seek to communicate clearly and effectively – and we thank you for your trust in us and partnership with us as we prepare for an AMAZING summer 2022.

INITIAL COVID-SAFETY PROTOCOLS (CSPs)

- **Increasing the number of programs for each grade level. Campers WILL be intermingled this year for group workshops and events, but the core programs will have smaller number of campers than in the past. This reduction allows for greater space between one another when gathered inside for activities.**
- **Capitalizing on our outdoor facilities and moving more classes, activities, and meals to outside spaces. We will continue to offer more opportunities to eat, play and learn outside.**
- **At this time, masking is NOT required. Wings will continue to follow the recommended best practices as shared by the CDC and local health officials. This policy will reflect ANY changes in recommendations as required.**

Campers spend the day in their chosen program with a camp leader and friendly student counselor.
